Suite 800
Dallas, TX 75244

Registration Fee: \$50.00

Strategies for Handling Workplace Violence Concerns

Workplace violence was sadly prevalent in the news in 2015 and Texas' "open carry" law became effective in the new year. OSHA also increased its focus on workplace violence last year and is expected to continue to do so in 2016. This seminar will discuss steps employers can take to address the threat of workplace violence, including:

- Strategies for preparing for, avoiding, responding to, and managing workplace violence concerns
- What employers need to understand about "open carry," their legal rights and their employees' legal rights
- Handling OSHA whistleblower investigations alleging retaliation for reporting workplace violence.
