Labor relations and HR professionals help their organizations adapt to social and economic challenges. Attuned to societal shifts and cultural policies, they're able to predict the need for change and lead their organizations into the future and new opportunities.

Now more than ever they're the superheroes of their organizations, faster than a speeding bullet, more powerful than a locomotive, able to leap tall buildings in a single bound – but they don't deal with a single villain or arch enemy – they deal with a multitude of complex challenges. And they know that networks, like the kind they build through CALPELRA, help them expand their knowledge, skills, and influence.

Join us at #CALPELRA2020 and unleash your change agent superpowers – capitalize on your powers to maximize human potential and energize change.
