

Security

Do you possess or control large amounts of information or data? Are you aware of your legal, professional, and/or contractual duties to safeguard? We work with clients to secure their data and develop enterprise-wide strategies for maintaining compliance.

Overview

We work with clients to secure their data and develop enterprise-wide strategies for maintaining compliance. Service offerings include:

- Cybersecurity assessments
- Written information security program development
- BYOD and device management
- Cybersecurity, ransomware/breach-response preparedness, response and litigation
- Cybersecurity awareness and training programs for executives and employees, including table-top exercises
- Vendor-assessment programs and drafting and negotiation of data-security agreements
- Government contractor compliance
- Strategy development for going paperless and cloud computing
